

# Frontier Quality Now Available in a Compact Size

## Introducing the New Dry Minilab with Superior Functionality, High Quality and Easy Operation

With a footprint of just 5.4 ft<sup>2</sup>, the DL410 comes in a compact size — you can even place it on a counter top. Highly functional output of 650 prints per hour (4R), and the high image quality that you have come to expect from Frontier. It allows you to offer high quality print services in a variety of locations. Easy operation with “MS” software, and easy maintenance with the Dry inkjet system.

Introducing the Frontier Dry Minilab DL410 — pioneering a new future for the photographic business.

Frontier Dry Minilab DL410

### High Quality

#### Frontier Quality with our Proprietary Technology

Equipped with Fujifilm's proprietary Image Intelligence™ image processing technology, together with FUJIFILM Quality Dry Photo Paper, you will be able to offer high Frontier image quality prints.

#### Image Intelligence™

Incorporated Image Intelligence™ automatically compensates for problematic conditions, such as poor lighting, backlighting, high contrast, underexposure, or overexposure. Image Intelligence™ also makes skin tones more natural and facial expressions more distinct. Processing time is reduced because photo image correction is automatic at the same time ensuring attractive, customer-pleasing prints.

Optimized image after processing

#### FUJIFILM

#### Quality Dry Photo Paper

FUJIFILM Quality Dry Photo Paper — inkjet paper produced exclusively for use with the DL410 — achieves a wide range of vivid colors, high black density and purer whiteness. In addition, the excellent image clarity of the paper enables you to achieve the highest quality prints with outstanding glossiness and sharpness.

### High Performance

#### 650 prints per hour (4R) and a high output of other paper sizes

High speed print function now with five sizes of roll paper, two surface options, and 8 x 10 sheet paper. Further enhanced to handle a wide range of print sizes — from 3R size up to 10x36 inch

#### 7 - order Sorter (optional)

All above functions plus 8 x 10 inch prints with this optional sorter.

### Compact

#### Compact size with a footprint of just 5.4 ft<sup>2</sup>

Its compact size without sorter allows it to be placed on a counter top increasing your location options. Available with optional double stack type cabinet, further enhancing space-saving capacity

Compact footprint 5.4 ft<sup>2</sup>

#### Double Stack Type Cabinet (optional)

The DL410 double stack design enables increased workload using exactly the same floor space.

### Scalability

#### Outstanding Scalability for Expanded Print Business

The DL410 is part of the new lineup of Expanding Frontier Solutions products. With outstanding scalability and connectivity to in-store ordering terminals and the Internet, the DL410 is able to accept a wide range of orders for high Frontier quality prints.

\*Limited combinations and number of units

### Easy Operation

#### Easy Operation with “MS” Software

Equipped with “MS” software for standardized operability. Enables the easy operation you have come to expect with Frontier RIP-PC and DL410 offer a wide range of connectivity for collective processing

#### Collective order management

Installation of FUJIFILM Frontier Workflow Management Software “MS” integrates the workflow of printing orders and output commands from a wide range of input. It affords complete control over in-shop complex workflows, which, along with easy preview operation, reduces errors and enables quick processing

Preview operation

### Easy Maintenance

#### Easy maintenance — just change the ink and supply extra paper when required

With the Dry Minilab system, the only maintenance is as simple as changing the ink cartridges. Easy complete daylight operation. Sheet and roll paper is easily changeable.

Wide range of easily changeable roll paper sizes

Handy sheet paper tray

Easily changeable ink cartridges

## Frontier Dry Minilab DL410 Main Specifications

Model name	DL410	
Print Method	Piezoelectric inkjet system	
Print capacity	Approx. 650 prints / hr 4R (4" x 6") Approx. 280 prints / hr 8R (8" x 10")	
Processing time (dry to dry)	Approx. 47 seconds (fastest time)	
Print resolution	720 x 720dpi	
Paper	Roll paper	4"(4" x 328'), 5"(5" x 328'), 6"(6 x 328'), 8"(8" x 328'), 10"(10" x 328')
	Sheet paper	8" x 10"
Paper type	Glossy / Luster	
Ink cartridges	4 colors (Y, M, C, BK) of dye-based ink (Volume: 500ml per color)	
Back printing	User defined information is printed on the back of the print — 2 lines (40 characters each line)	
Printer sorter	7-order or 8-order sorter	
Floor Space	Approx. 5.4ft <sup>2</sup> (RIP-PC and other options not included)*	
Total installation space	Approx. 25.83ft <sup>2</sup> (RIP-PC and other options not included)	
Power requirements	100-120V / 200-240V (50 / 60Hz) manual conversion single-phase two wire	
Dimensions (in)	L 31.50" x W 24.45" x H 23.19" (RIP-PC and other options not included)	
Weight	Weight per unit: 212 lbs (RIP-PC, paper, inkjet cartridges options not included)	
Power consumption	51.0Kwh per month (in energy saving mode)	
	82.7Kwh per month (without energy saving mode)	

\*Floor Contact Footprint Approx. 3.8ft<sup>2</sup>
